Worksheet 6 (Design)

Name (Print): _____ Section: _____

1. Scenario: Library Villager System

A Minecraft village has a Library Villager who keeps track of which players read which books. Each book has a title and an author. Each player has a name and a level. The villager records when a player reads a book.

It should be possible to generate a report:

- showing all players who read a specific book (with their level)
- showing all books a specific player has read (with authors)

Primary Nouns (classes):

Secondary Nouns (attributes):

Verbs (methods/actions):

2. Scenario: Mob Tracker System

In a Minecraft world, the system tracks which players defeat which mobs. Each player has a name and health level. Each mob has a type and danger level.

Whenever a player defeats a mob, the system records it.

It should be possible to generate a report:

- showing all players who defeated a specific mob (with their health)
- showing all mobs a specific player has defeated (with danger levels)

Primary Nouns (classes):

Secondary Nouns (attributes):

Verbs (methods/actions):

3. Bad Design 1 (see lecture notes)

What principle(s) are violated? (write the number and name)

Explain why:

4. Bad Design 2 (see lecture notes)

What principle(s) are violated? (write the number and name)

Explain why:

5. Before You Leave

Write one question you still have about classes, objects, or constructors.
