CSSE 220 - Object-Oriented Software Development

Milestone 2: Game / App Check-Off

Instructor worksheet | Live demonstration | 50 points

Team name: _____ Date: _____

Project name: _____

LIVE GAME / APP DEMO

Ask students to demonstrate each item in the running application, not just describe it.

- ☐ **Application launches and loads** ____ / 10
  Run it now. Does the main screen appear without errors?

- ☐ **Player/object moves or responds to input** ____ / 10
  Show keyboard, mouse, or button controls. Do they visibly work?

- ☐ **Gameplay or core interaction works** ____ / 10
  Show a meaningful action: collect, collide, shoot, select, or interact.

- ☐ **Game state visibly changes** ____ / 5
  Show score, health, progress, win/lose, or equivalent app feedback.

- ☐ **Graphics and layout are visible** ____ / 5
  Show game area, sprites/shapes/images, and readable controls.

- ☐ **Game screenshots in Google Doc** ____ / 5
  Are screenshots of the actual running application included?

- ☐ **Challenge and design decision documented** ____ / 5
  What was difficult, and what solution did the team choose?

Demo score: _____ / 50 Priority fix before next milestone: _____

GOOGLE DOC & SHARED TRACKER - quick checks (not separately scored)

- ☐ Milestone 2 sections completed in team Google Doc
- ☐ GitHub repository link is in the main Excel sheet
- ☐ Team Google Doc link is in the main Excel sheet

INDIVIDUAL WORK LOG CHECK - 4 to 5 students

Check if logged in team Google Doc

Student name	Hours logged	Specific task logged	Checked
1.			☐
2.			☐
3.			☐
4.			☐
5.			☐

Note: Mark criteria based on what the team can demonstrate today. Adapt game mechanics for non-game apps.
